# DARSHAN K S

+91 9741600595 | darshuks09@gmail.com | Github | linkedin | portfolio

## SUMMARY

Full Stack Developer building AI-driven systems and scalable web applications using FastAPI, React, and modern backend architectures. Experienced in REST APIs, async systems, and intelligent workflows using NLP and RAG-based memory. Focused on developing automation-driven systems that analyze tasks, optimize schedules, and execute actions.

## PROJECTS

### Property_Hub — MERN Stack Real Estate Marketplace

Live | Github

- Built a full-stack real estate platform with role-based authentication enabling secure property listing and user workflows
- Developed REST APIs for property management, authentication, and data handling with JWT-based security and OTP verification
- Implemented advanced features including filtering, pagination, sorting, and Cloudinary-based image uploads.

### Slotify — Full Stack Scheduling Platform

Live | Github

- Built a scheduling platform with availability management and public booking links
- Developed dynamic slot generation and backend validation using Next.js and PostgreSQL (Prisma)
- Integrated Google Calendar via OAuth to create events with Meet links and prevent double bookings

### Jarvis — Personal AI Chief-of-Staff (AI + Full Stack System)

In Progress | Github

- Built a full-stack AI system using FastAPI and React to manage tasks, detect scheduling conflicts, and optimize daily planning
- Designed an intelligent task engine to prioritize tasks, identify overload, and detect conflicts based on deadlines and workload
- Implemented NLP-based command system and RAG-powered memory to execute actions via a command pipeline

## EDUCATION

**Bachelor of Engineering (B.E.) — Information Science and Engineering**
Acharya Institute of Technology, Bangalore
2022 – 2026 | CGPA: 8.35 / 10

## SKILLS

**Frontend:** React.js, Next.js, Javascript(ES6+), TypeScript, Tailwind CSS
**Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT Authentication
**Databases:** MongoDB, PostgreSQL, MySQL
**AI / Systems:** NLP, RAG, Automation Workflows
**Tools & Platforms:** Git, GitHub, Vercel, Render

## ADDITIONAL INFORMATION

**Languages:** English, Hindi, Kannada , German(A2), Japanese(A2)
**Interests:** Building AI systems, automation tools, Books
